Example: Your bloodwork price + anesthesia price + surgery price + medications = **final cost**

*Please note: For mass removals, eyelid mass removals, perineal and diaphragmatic hernia repair, anal sac removal, and gastrointestinal surgery, a consultation with the Veterinarian is needed to get a quote.

**Feral cats: price includes surgery, injection of NSAID, rabies and FVRCP vaccine, ear tip.

Please, take into account that you have the option to bring your companion animals for blood work before their surgery, and you can expect us to have the results within 1-2 days. It's crucial to understand that the validity of the blood work varies, typically ranging from 1 to 3 months, and this duration depends on the patient's age and the type of surgery they are undergoing.

(only dogs under 20lbs.)
